

ISO Containers Pre-Fabricated Structures

All of Unity's portable buildings for dwelling/multi-purpose are manufactured from, ISO standard steel containers, 8' x 20' and 8' x 40' in size, and carry a structural warranty. Converted by an experienced workforce.

Rugged and durable, our units are perfectly suited for disaster relief, emergency housing, and harsh conditions. They can withstand natural disasters including earthquakes, hurricanes, tornadoes and earthquakes.

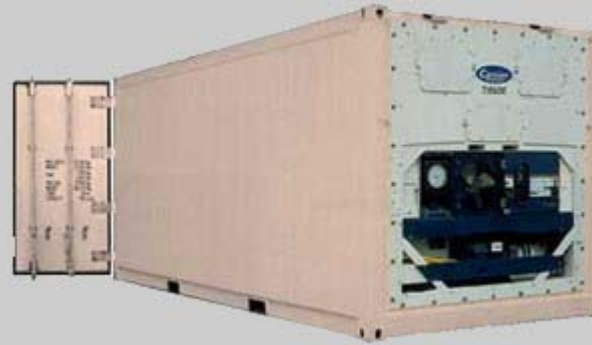

There are a variety of models, options, and configurations available. These can range from basic models (with windows, entrance doors, AC 110v/220v electrical wiring, telephone connection, internet connection, two inches of rigid insulated finished walls/ceiling, vinyl floor covering and utility room) to those models with many amenities such as a kitchen, bathroom with shower, bedroom, solar-powered electricity, etc. We also offer shower only units (with 6 showers and 4 sinks); connecting units (great for dining rooms, clinics, classrooms, etc); and custom models. All models are available.

Roll up door and partitions installed to make smaller components

Refrigerated ISO Containers comes equipped with insulation and it's own refrigeration unit. Ideal storage and shipping solution for perishable items. Available in 20ft and 40ft lengths and can be easily modified to a number of applications.
